

# Security Ties

## NYLON SECUR-A-TIE®

For bundling, harnessing, tagging, etc. where low tensile strength (18 lbs.) is sufficient. Fasten by hand down to 1/16" diameter. Can go through a hole as small as .078 (5/64). Ideal as a security seal (first aid boxes, meters).  
Not reuseable. Will break if tampered with.

Part No.	Length	Max. Bundle Dia.	Box Qty.
D 8350	5	1-3/16	5,000
D 8320	8	2	2,000

Minimum order 1 box.

## NYLON SECUR-A-TACH®

Ideal for attaching bags, keys, spare parts, tags, etc. Can go through a hole as small as .093 (3/32). Quicker and stronger than tying. Handy for tool cribs, repair depots. Take up little space in service kits. Not reuseable.

Part No.	Length	Loop Size
D 8302	3	1
D 8300	5	1-5/8
D 8301	9	3

Minimum order 1 box. Packed 5000 per box.

## NYLON SECUR-A-SEAL™

These 8-inch long polypropylene ties are specifically designed for fire extinguisher applications. They have a tamper-proof seal and are designed to break at 8 to 15 lbs. Recognized under the component program of Underwriters Laboratories, Inc. File No. E3502 and Underwriters Laboratories of Canada Inc.

**Sold only in full cartons of 20,000. Available in natural, red or yellow. Please specify colour when ordering.**
