

Premium Grade Fittings

Cords is proud to offer a full line of premium grade fittings designed with laboratory and instrumentation applications in mind. All premium grade fittings feature a barb moulded without a parting line. No parting line ensures a leak-proof seal by eliminating flash or mould mismatch in the moulding process.

Premium grade fittings are moulded from 100% virgin material only and are carefully manufactured under controlled conditions with new technology and inspected for even the slightest quality defect.

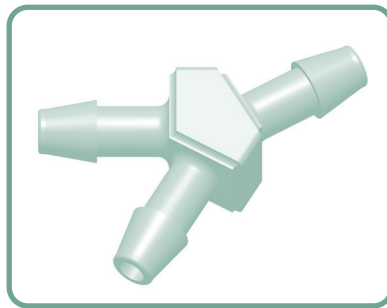

These fittings have an easy-to-hold base and a barb 1.4 to 1.5 times larger (depending on size of fitting) than the tubing ID.

Once the single sharp barb is inserted into the tubing, a secure, leak-proof seal is formed that can hold up to 125 P.S.I. without the use of clamps or ties.

They come in Tube to Port Fittings, 90 degree Tube to Port, Barbed Connectors, Barbed Reducing Connectors, Barbed Tees, Barbed Reducing Tees, Barbed Elbows, etc.

Available in white nylon, natural polypropylene, natural Kynar and clear polycarbonate.

“Y” CONNECTORS - PREMIUM GRADE

Part No.	Tubing ID
MY 01	1/16 x 1/16 x 1/16
MY 11	3/32 x 3/32 1/32
MY 2	1/8 x 1/8 x 1/8
MY 53	5/32 x 5/32 x 5/32
MY 3	3/16 x 3/16 x 3/16
MY 4	1/4 x 1/4 x 1/4
MY 6	3/8 x 3/8 x 3/8
