

Swiftach® Systems

These versatile fastening devices can save you time, labour and money. If your application involves tag attaching, product assembly, sewing operations, packaging or display units, Swiftach® may have your solution.

Here are just some of the uses for Swiftaches®: tag hanging goods, tag and pair items simultaneously, hold inventory control tags in place, product assembly, ID for fish and livestock.

A wide range of sizes and shapes (T-END™, loop, hook and button end) are available. Please call for minimums.

The Swiftachments® shown below have 50 paddle fasteners per clip.
