

Miniature Tube/Hose Fittings

BARBED CROSS CONNECTORS

Stocked in nylon and polypropylene, this 1/4" barbed cross fitting features 4 self-sealing barbs placed at 90° increments from an easy-to-grip, square base and will fit tubing with an ID of 1/4". Self-sealing sharp barbs are tested to hold up to 125 P.S.I. without the use of ties or clamps.

This fitting is also available in black heat-stabilized nylon, HDPE, LDPE, polycarbonate, Kynar and acetal if quantities are sufficient.

Polypropylene Tube Fittings

Cords offers a full line of polypropylene tube fittings including tube to tube, tube to male and tube to female pipes. They come as union connectors, bulkhead, elbow and tee unions, etc.

Sizes range from 1/4" to 5/8" nominal tube OD and from 1/8 to 3/4 NPT for either male or female pipe. Please call for further information.
