

Releasable and reuseable ties for easy binding, closing, bagging, holding and tying. Available in two materials: polyethylene for high flexibility and moderate strength, and nylon for less flexibility and more strength with high resistance to temperature and chemicals.

Polyethylene ties are stocked in red and available in natural, black, blue, and yellow. Nylon ties are stocked in natural and also available in black. Please specify colour when ordering.

An adhesive backed mounting platform (Part No. MPBTA) is also available. Moulded of natural nylon, it may also be screw mounted.

Part No.	Overall Length (fraction)	Overall Length (In)	Overall Length (mm)	Max. Bundle Diameter (fraction)	Max. Bundle Diameter (In)	Max. Bundle Diameter (mm)	Tensile Strength (lbs.)	Min. Order Qty.
