

Value-Line – Regular

The widest line of versatile self-locking nylon cable ties for standard and heavy duty, regular and mounting applications. ValueLine ties securely bundle cables, wires and hoses from 1/16" to 15" diameters. They assemble easily by hand, or you may wish to tighten and trim them with our tensioning tools.

These non-releasable nylon cable ties are chemically resistant to salt water, weak acids, alcohol, grease, oil, gasoline and common solvents and they are fungus inert. Black ultraviolet resistant material for outdoor use is also available.

All our ties and installation tools are compatible with all other manufacturers' standard ties & tools.

Coloured, Fluorescent And Striped Value-Line

Use **coloured** ties (**add suffix C**) as a convenient way to identify cables, or to just jazz up your packaging.

The standard duty 4", 5-1/2", 7" and 8" (40 lb.) ties are available in blue, gray, green, orange, red, yellow, purple and brown. (Exceptions: no 5-1/2" purple, no 7" brown.) The 11" tie is available in red and the 14" tie comes in red or blue.

To really catch your customer's eye, try one of our exciting **fluorescent** colours (**add suffix F**): blue, green, orange, pink and yellow.

These vibrant ties come in the 4", 5-1/2", 7", 8" (40 lb.) and 11" standard duty ties. Minimums available upon request.

The 4" tie is available **striped** (**add suffix S**). Stripes can be white, red, black, yellow or purple on tie colours of brown, orange, green, blue or gray. There are 25 different colour combinations for circuit identification. Available in packs of 50 or 1,000.
