

Standard (Tolerances: OD \pm .010; ID \pm .005; Length \pm .015)

Used in electrical and electronic assemblies and as bushings, bearings, rollers, glides and washers. Smaller sizes may be used as LED supports.

These spacers have IDs to take standard screw sizes #2 up to 1/4. If you need a spacer with slightly different dimensions than those shown here, check out our special nylon round spacers. If you still don't find what you need, call us and let us give you a quote on a custom spacer.
