

Precision Ground Solid Balls

Nylon or Delrin (Acetal)

Diameter Tolerance $\pm .002$

These sink in water. Very strong.

Polypropylene and Polyethylene

Diameter Tolerance $\pm .002$

Both float in water. Very light. Polyethylene is available in both low-density (suffix LDPE) and high-density (suffix HDPE).

Teflon

Diameter Tolerance $\pm .002$

These sink but don't absorb water. Very heat and chemical resistant.

Acrylic

Diameter Tolerance $\pm .010$

Crystal clear, highly polished. Invisible in water and they sink. Very pretty.

Crystal cabochons (half-balls) available 1/4" to 3".

Tungsten Carbide

Diameter Tolerance $\pm .0001$

Very hard. Heavy metal group. Standard sizes range from .031" through 1.000" and from 1mm through 5mm (not shown in chart below—please ask). Custom-made decimal sizes available.

Part No.	Type	Material	Colour	Diameter (in)	Diameter (mm)
.062-ACR	SOLID BALLS	ACRYLIC		0.062	1.57

Minimum order 1000.

Quantities under 1000: Prices on request.

Nylon, Delrin: Other sizes from 1/16" (.062) to 4" available.

Acrylic: Other sizes from 1/16" (.062) to 4" available. Also available in transparent and opaque colours.

Polypropylene, Teflon: Other sizes to 3" available.

Polyethylene: Other sizes to 3" available in LDPE and HDPE.
