

Snap Bushings

These nylon bushings convert raw-edged holes to smooth, neat, insulated ones. Special locking “fingers” allow the bushings to snap into holes with fingertip pressure. Mechanically protect, insulate, and isolate telecommunications and electrical cables, tubing, hose, rope and utility lines.

SB312-3, SB375-4 and SB437-4 are also available as brass-coloured parts for lamp and lighting applications.

Part No.	Mounting Hole Diameter	A Inside Diameter	B Head Diameter	C Overall Height	Max. Chasis Thickness	Minimum Order Quantity
