

Spiral-Cut Cable Wrap

Wraps on like tape. Easy to remove and re-use. Allows branch-outs and break-outs of single/multiple wires and re-routing of replacement wires. The strong grip holds wires firmly while still allowing flexibility. Prevents kinking or curling of wires. Absorbs vibration, insulates cables and protects wires and tubes from abrasion.

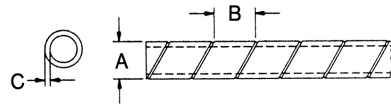

Stocked in standard cut, but also available in reverse (opposite) cut at no additional charge. Reverse cut must be specified at time of order.

STANDARD CUT

REVERSE CUT

Polyethylene
